Subject: Radiological risk evaluation for Rocky Flats FYR
Attachments: removed.txt; Question B_022717.docx; Appendix C_Risk Assessment.docx

All:

Please find attached two files that contain the radiological risk/dose evaluation for your review. The files are: (1) an excerpt from the main body of the document (Question B) and (2) a revised Appendix C, Risk Evaluation. These files contain our progress on the radiological risk evaluation portion of the FYR. This is still a work in progress, but we wanted to provide you something to consider prior to the meeting tomorrow. I am sorry we could not get this to you last week, as promised.

In the Question B file, the text that is not highlighted in grey is the new radiological text. In Appendix C, the new radiological text begins with Section C.2.3.3 and continues through the end of the appendix.

Our radiological SME, Mike McDonald will be attending the meeting tomorrow and will provide a summary of the approach taken to complete the radiological evaluation for this FYR.

See you tomorrow. Thanks.

Patty
